Steam Appliances

The Sienna Aqua Fusion Steam Mop is available in 4 Vibrant Colors for spring 2014, including Dazzling Blue, Caribbean Sea, Lime Green, and Fusion Coral. This unit puts you in total control of your cleaning with its essential features including trigger driven Steam Control to clean most sealed floor surfaces including wood, vinyl and tile. The Aqua Fusion produces 1500 watts of steam power that heats water up to 212F in seconds. The New Ultra Low Profile triangular swivel cleaning head is designed to access tight spaces, clean, and sanitize a variety of floor surfaces easily. The heavy duty micro fiber pads go on and off easily and absorb large quantities of dirt and grime. Aqua Fusion easily switches from steaming hard floors to freshening and sanitizing carpets using the included carpet glider accessory.

The cleaning power of Sienna's Aqua Fusion Steam Mop will Steam, Clean, Sanitize and Attack dirt on all sealed floor surfaces including tile, wood and carpets using only water without leaving a chemical residue or chemical odor behind. When cleaning is finished just fold the unit in half for compact storage virtually anywhere.

The removable 19 oz water tank is easy to fill at the sink, and gets you cleaning again in seconds. The built in filter will insure a longer life for the unit. The new Ultra Low profile triangular head with high quality Micro Fiber pads provides great mobility and access into tight spaces. The unit is an economical, chemical free, and an eco-friendly cleaning solution for your home that is laboratory tested to kill 99.9% of germs and bacteria.
