Visio Window Steam Cleaner

The Sienna Visio Window Steam Cleaner unit is a lightweight, easy to use Handheld (electric) Steam Cleaner designed to clean virtually every window and glass surface around the home. The unit features a 23' cord for excellent range and mobility. There is a 9.5 oz water tank that allows for many minutes of steam cleaning. There is no need to cool down the unit before you refill the tank providing endless cleaning time. The unit heats up in less than 30 seconds. A locking trigger controls the steam output so you use only the steam needed for the job. The Variable Steam Flow Control adjusts the steam intensity to the level you need to clean most surfaces. Sienna's New Visio Window Steam Cleaner powers through dirt and grime on all your household glass, window and other surfaces making them sparkling clean in no time. The unit includes the following essential cleaning accessories, 11 inch and 8 inch squeegee attachments perfect to clean most window sizes and types. 4 small nylon brushes that attach to the jet nozzle or angle concentrator fitting these brushes allow you to clean in corners and along window frame borders to get out the dirt that builds up there as well as on many other difficult to clean household surfaces.
